**CARNEYS POINT TOWNSHIP SEWERAGE AUTHORITY
FINDINGS AND RECOMMENDATIONS
YEAR ENDED NOVEMBER 30, 2022**

2022 Audit Report approved April 15, 2025:

Finding No. 2022-001

- A. Description: The Authority's internal control system lacks certain controls with respect to separation of duties and its system does not consistently produce information and classifications to bring the accounting records into alignment with generally accepted accounting principles.
- B. Analysis: The Authority has a limited number of staff members to perform all accounting functions. Cost benefit considerations prohibit increasing staff size, and while, as described below, the Authority has engaged an accounting firm to provide fee accounting services and guidance, certain internal control functions are still in the process of being implemented. Note that this is a repeat of a prior year finding with improvement noted.
- C. Corrective Action: The Authority will continue to implement controls to better achieve segregation of duties, and the draft financial statements prepared by the auditors, including the related footnote disclosures, will continue to be carefully reviewed by the Financial Consultant prior to issuance. Responsible parties to include The Authority's office staff, and Financial Consultant with Board oversight.
- D. Implementation Date: April 15, 2025
